

1. Green renters aims to help those living in rental accommodation live more sustainably, we will do this through:
 - a. Providing resources such as a website, workshops, events and projects
 - b. Providing spaces and opportunities for discussion
 - c. Providing a voice and representation
2. We aim to make our activities free to the public as much as possible, these activities will be supported by grants, donations, memberships and our trading activities.
3. Green Renters aims to be as transparent an organisation as possible, ensuring that our members and the public know how we work and where their money is spent.
